

INTRODUCING...

# DETEGO®

A Simple-to-Use, All-in-One Suite of Tools for Police, Military, Intelligence Agencies & Enterprises

- Fastest digital data acquisition times
- Most comprehensive, all-in-one digital forensics solution
- Integrated leading Computer, Mobile, Tablet & Cloud acquisition capability

**DETEGO® BALLISTIC IMAGER**  
 PARSE RAM & Image:  
 128GB Drive - 4 minutes, 5 seconds  
 256GB Drive - under 8 minutes  
 512GB Drive - 16 minutes  
 1TB Drive - 32 minutes

**DETEGO® MOBILE & TABLET**  
 Acquire data from thousands of mobile devices and apps. Automatically unlock smartphone screens, inc. iPhone and pull user / app credentials seamlessly.

**DETEGO® ANALYSE**  
 Aggregate and consolidate your digital case & exhibit data, all manageable within a single repository with automated analysis and multiple in-built & configurable forensic processing functions.  
 Quickly create, view and print evidential reports that instantaneously summarises all digital case & exhibit data. Comprehensive audit logs. Quickly charge and convict.  
 Discreet option, designed for rapid digital data acquisition, specifically around operational scenarios.  
**Enquire to find out more.**

**DETEGO® FIELD**  
 'Sniper Forensics' tool that acquires data from Windows, Apple Mac & Linux systems. Automatic Hash & Keyword matching with instant alerts.

**DETEGO® CLOUD**  
 Acquire data from the most comprehensive list of well-known Cloud Storage Services incl. Google Drive, Dropbox, OneDrive & Google Location History.

**DETEGO® MEDIA ACQUISITION**  
 Simultaneously acquire data, including deleted data from multiple devices, including USBs, SD cards, SSDs, HDDs and more. Live viewing of critical data.

**DETEGO® CYBERHAWK**  
 Ascertain targets' cyber footprint and build up intelligence and evidential pictures using this cyber exploitation capability. Used in cyber investigations, surveillance & counter-surveillance Operations.

**TRY DETEGO® FREE** for 30 days and discover why it's trusted by Government

**DETEGO® IS MODERNISING** the world of digital forensics

## DETEGO® FUSION

Link and map all of your digital data exhibits (join the dots and find 'needles in haystack' connections amongst all devices) including Windows, Apple Mac and Linux Computers & Laptops, Mobiles, Smartphones, Tablets, Cloud Storage, USBs and other removable media such as HDs, SSDs, SD cards, IDE and SATA drives, CD, DVD, Blu-ray, etc.

### FEATURES

- Instant access to Wi-Fi passwords & online accounts
- Interaction with basic and advanced options
- Dedicated password and credentials viewer
  - Military grade Steganography detection
- Network storage volumes supported
  - Extraction profiles pre-loaded
  - Bypass Secure Boot

### BENEFITS

- A single report is generated, which summarises all exhibits
- Simple to use interface with minimal training overhead
- Single solution for both Field and Lab scenarios
- Designed in-line with operational scenarios
- Seamlessly move digital case and exhibit data from Field to Lab locations
- End-to-end digital forensics capability
- Streamlined workflows

"The capability and usability provided by MCM Solutions uniquely fits our needs as a forward leaning Military unit. We had several complex issues and capability gaps, which they have plugged and are helping to continually improve on". The full Suite of tools has enabled a simple single source procurement and quantum leap forward in our Digital Exploit and Cyber capability."

*Undisclosed Special Operations MEDEX/DOMEX SME*

"With Detego®, we were able to bring all digital investigations in-house, giving us immediate results and saving huge sums in expensive, long-winded and what we now know to be poor quality out-sourcing."

*CIO. Large Global Bank*

## ALSO INTRODUCING...

### DETEGO® Remote Site Kiosk

An All-in-One Digital Forensics Kiosk Solution with 'Sniper Forensics' Capability

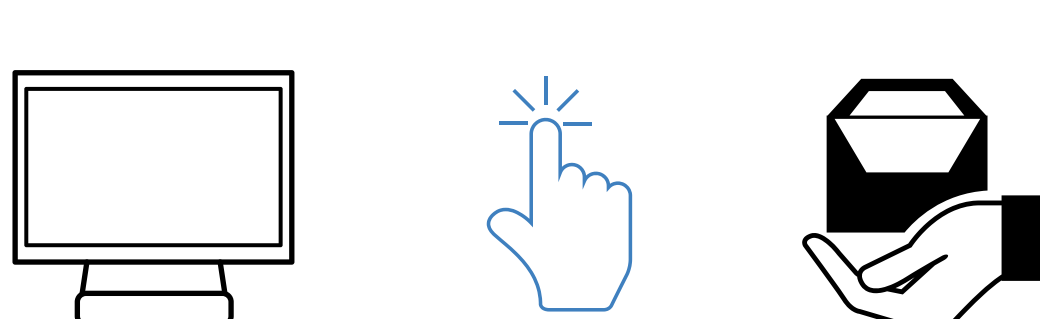

- Expedites acquisition times for quick delivery of actionable results
- Aggregates and consolidates digital case and exhibit data
- Automated analytical processes
- Centralised management
